

Over 50 years of experience have helped to formulate this specific line of horse products. Our counter-irritant liniment in gel form, ISO-TITE™, can be used to tighten, sweat and freeze. ISO-TITE™ is recommended to be used as an aid in the temporary relief of minor stiffness and soreness caused by overexertion.

Directions:

Clean legs thoroughly with castile soap or other non-medicated cleanser.

For Tightening: Cleanse affected area thoroughly. Apply ISO-TITE™ liberally to needed area(s). Brush or rub in well. Cover with standing cotton, then bandage. Use once or twice daily.

For Sweating: Cleanse thoroughly. Apply ISO-TITE™ liberally. *Always cover with a thin sheet of cotton first*, then cover with paper or desired wrap. Next, use cotton or a quilter wrap. Finally, cover with a standing bandage.

For Freezing (before race or workout): Cleanse thoroughly. Apply ISO-TITE™ liberally. Apply cold water bandages. Stand in ice approximately 1-1/2 hrs.
