

**Fungas+<sup>®</sup>**  
**SPRAY**

Biopolysan<sup>®</sup> is a patented technology derived from coconuts that is proven to boost the effectiveness of the formula.

**A Topical Preparation for Animals with Skin Conditions**  
**Helps Treat: Rain Rot, Ringworm, Dry Flaky Skin, Wound Bacteria, Girth Itch, Dew Poisoning, Pastern Dermatitis (Scratches/Greasy Heel), Pythiosis**

**Directions for use:**

For best results wash the affected area with Fungasol<sup>®</sup> Shampoo, otherwise clean with warm soapy water, then pat dry. Spray animal's entire coat with Fungasol<sup>®</sup> Spray making sure to concentrate spray on affected area. Do not rinse, allow spray to dry naturally. Spray daily until skin condition has cleared up.
