& Rain Rot

1. Thoroughly clean infected area with water only if necessary and allow to dry.
2. Apply BANIXX[®] liberally.
3. Repeat twice daily, as needed.

NOTE: Unless necessary, do not clean affected area between applications.

Banixx For Every Pet!

Banixx has no smell and no burn!

Unique pH formula for all Pets

Clinically proven safe around the eye

Earth-Friendly, no antibiotics/steroids

Not harmed by temperature extremes

Not intended for human use

For Thrush,
Hoof Abscesses and
White Line Disease

1. Thoroughly clean and dry foot.
3. Apply boot to infected foot.
4. Add 3-4 ounces of BANIXX[®]
5. Repeat steps 1 through 4 daily for 4-5 days. For best results keep boot on during treatment.

For best results, use immediately after your professional has removed diseased tissue.
