

SKUNK PLUS Pet Deodorizer

**Removes All Odors
And Cleans Away Fleas!**

Dissolves...

- Oils
- Grease

**Destroys Animal Odors
Completely!**

Highly Concentrated

**Non-Toxic!
All Natural Enzymes
16 FL. OZ. (473ml)**

GENERAL USE:

Dissolves odor and oils from the coat and skin surface of dogs, puppies and all other animals. Multipurpose cleaner contains high grade enzymes. Skunk Plus Pet Deodorizer is not a chemical and needs time to work effectively on your pet. The longer the product remains on your pet, the better the results.

Skunk Odor: The secretion from a skunk is an oil based substance that Skunk Plus Pet Deodorizer will dissolve.

DIRECTIONS:

Dilution Rates:

	Product	Water
Light Odor/Oils	4 ounces	32 - 64 ounces
Moderate Odor	6 ounces	32 - 64 ounces
Skunk Odor	16 ounces	32 - 64 ounces

Using a clean plastic container, mix desired amount of product with warm water (milk carton, plastic soda bottle - quart to 64 oz. in size). Pour contents directly over entire body and massage into coat. Let product remain on pet for 5 - 10 minutes before rinsing. Soaking time allows product to work more effectively on odors and fleas. Should odor persist, repeat procedure.

RECOMMENDED: After using Skunk Plus Pet Deodorizer, use a pet shampoo to restore pets natural coat luster.

STORAGE:

Store out of direct sunlight, and below 120°F.

CONTENTS:

Natural Enzymes, Distilled Water, Enhancing Agents. Bacteria Free, Food-Grade Enzymes. 100% Biodegradable, Non-Hazardous, Non-Toxic and Environmentally Friendly.

CAUTION: KEEP OUT OF REACH OF CHILDREN!

Do not take internally. Avoid contact with eyes. In case of eye contact, rinse with water. Should any irritation occur, seek medical attention. Buyer assumes all risks when not used as directed or intended. **Not recommended for use on extremely old or sick animals. Consult with your veterinarian. Do not use on newborns. Recommended age: 3 months and up.**

NOTE: Safe. No restrictions when used as directed. Reddening of the pets eyes may occur after bathing and will return to normal after a short period of time after bathing.
