DIRECTIONS FOR HORSES: For best results, shampoo and rinse animal thoroughly. Remove excess water with sweat scraper. Apply ShowSheen to coat and stroke hair flat with palm of hand or fine brush. Apply to mane and tail, then comb through. No washing off; nourishes for days.

For weekly touch-ups, brush animal thoroughly. Apply ShowSheen to the coat, mane and tail while dry. Then hand stroke or brush in direction of hair. To easily remove burrs and tangles, allow mane and tail to dry before combing.
