

HOOFLEX[®]

Magic Cushion[®]

HOOF PACKING

- Fast acting and long lasting
- Uses natural ingredients
- Helps to reduce pain and swelling in the hoof

The Horse World's Most Trusted Name[®]

Directions for Use: Thoroughly clean hoof using a hoof pick and wire brush if necessary. Due to the sticky nature of the ingredients, you may want to use gloves to apply. Excess product may be removed with isopropyl alcohol. For packing under shoe and pad: Pack hoof sole with Magic Cushion[®] prior to nailing or gluing on pad and shoe. For packing overnight: Pack hoof sole with Magic Cushion[®] to a depth of 1/2 inch. For optimal results, especially barefoot horses, cover sole with paper or plastic, then cover entire hoof and sole with self-adhering wrap or hoof boot. Reapply every 24 – 48 hours until condition improves.

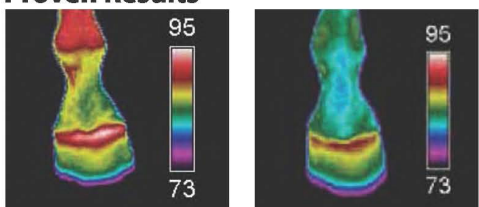

Caution: COMBUSTIBLE. KEEP OUT OF REACH OF CHILDREN AND OTHER ANIMALS. FOR EXTERNAL USE ONLY ON ANIMALS. Not for human use. Avoid getting into eyes or mucous membranes. Do not apply to irritated skin. If excessive irritation develops, discontinue use. Do not allow prolonged contact with horse's skin above hoof.

- Starts working within one hour to reduce hoof heat*
- Proven to provide significant reduction in hoof heat for up to 24 hours*
- Proven to help relieve the symptoms associated with hoof concussion and trauma*
- Trusted by top farriers

*Thermal imaging study conducted September 2012.
